To Whom It May Concern:

I had the pleasure of building a mountain home in North Carolina with Bill Miller as my Project Manager. He was recommended to me by a friend of mine who is in the industrial project management business and knows talent when he sees it.

Bill is a man of integrity – direct and forthright in all of his dealings with me and with the contractors working on the construction of my home. He has extensive experience and a genuine talent in the planning, construction, and overall project management of a custom home. He pays attention to the details that are essential to the completion of a fine home and takes a personal commitment to get it right. Bill listens effectively and was attuned to our interests throughout the project. He used his experience, creativity, and resourcefulness to deliver the look and features that we wanted in our home. We are very satisfied with the home we have built.

If you are considering building a custom home, I have no reservations in recommending Bill Miller to you.

Sincerely,

Robert C. Olsen
